

2015-2016 MISSION IMPACT

2,790 people were provided free information and support for a person facing cancer via 1.800.227.23451, email, and online chats

289 people were connected to clinical trials matching services, which currently lists 6,000 ongoing studies

1,343 people were provided rides to and from treatment through our Road To Recovery program

324 women facing breast cancer were guided through every step of their journey through our Reach to Recovery program

1,786 nights of free lodging were provided to a survivor and their caregiver having to travel away from home for their treatment at our Philadelphia AstraZeneca Hope Lodge

12 early career researchers were supported by turning to the American Cancer Society to investigate cancer, its causes, or how to help patients cope with the effects of the disease/treatment
